

## Chicago Pneumatic – CP28 Series Cushion Clutch Screwdrivers!

**Chicago Pneumatic** recognises that within its Customer base there are demanding assembly applications where precise torque is not always demanded! They do however recognise that excellent durability and operator comfort remain vital to good productivity. Hence the introduction of the new **CP28 Series** of pneumatic Screwdrivers

There are four new tools in the range, starting with the two pistol grip models each with rubber comfort grip and Robust aluminium housings

- **CP2816 for Intensive Use:** With quick torque setting and one handed reverse button providing 4.6Nm 1900 rpm, weight just 1.2Kgs
- **CP2817 for MRO & Assembly:** Providing up to 8.5 Nm ,800rpm at 1.3kgs.

These are complimented by two straight models: -

- **CP2828 for Industrial & Slim:** Providing 3.2Nm, High speed at 1300 rpm with small diameter grip, low noise level and weighing only 0.6kgs
- **CP2829 for Productive & Ergonomic:** Providing 5.2Nm, 900 rpm, also at just 0.6Kgs.

This new range of 'Cushion Clutch' Screwdrivers' being fast and productive were designed to cover various applications from Intensive use in production assembly lines to MRO applications. They are suited to many market segments such as White goods, Electronics, Mechanical Assembly and general light assembly applications. Why not contact Chicago pneumatic and arrange your demonstration!
