

Mirage Machines Press Release

Industry Leader Continues to Serve Oil and Gas Industry with New Exclusive Machinery Partnership

HTL are pleased to announce that they have now been appointed as Mirage Machines' official and exclusive global rental partner. Mirage Machines design and manufacture portable machine tools for use across a number of sectors - including energy, nuclear, offshore, subsea, renewable and mining making them the perfect fit to complement HTL's controlled bolting product portfolio.

HTL's strategic partnership with Mirage Machines will see product lines such as: Drilling and Tapping, Flange Facing, Hot Tapping, Line Stopping and Boring and Orbital Milling machinery being added to their rental fleet, offering customers an even wider selection of solutions to solve problems faced in industry.

With both HTL and Mirage Machines being family founded businesses and family members still holding Director and CEO status' it is guaranteed that a friendly customer focused service is offered to every customer. The businesses have both been in operation and experienced significant growth since the early 1990's, consequently ensuring customers are offered the most innovative solutions by harnessing unrivalled knowledge and expertise gained over the years.

Paul Harrison, Sales and Marketing VP, Mirage Machines comments: "HTL is the perfect global rental partner for Mirage Machines as over a number of years they have proved to be a great supplier to the markets we are working in, their ability to react to their client needs is an absolute credit to their staff and business and is shown through their aggressive growth. We are excited about this new business venture together and look forward to a long standing relationship which we see adding great value to our clients"

This truly is a seamless partnership for HTL that complements their continuous journey of growth and allows the industry leader to continue to drive innovation and deliver world class solutions to industry.
