

"AT-PAC began as a broker of multiple Scaffolding, Shoring and Forming systems. In the late 1990's AT-PAC standardizing their fleet with the best overall scaffold system in the world. Adopting the original German designed and engineered rosette/ring type scaffold system as our core product line, AT-PAC has since redesigned and engineered the original product to become an even better system today, AT-PAC Ringlock.

As a direct manufacturer, we provide the highest quality products by ensuring that our production process adheres to a rigorous quality assurance program.

At AT-PAC, we utilize our expertise to provide a comprehensive range of project services with an unwavering commitment to safety & quality.

As a privately owned corporation, we offer creative solutions that can be tailored to our clients' unique project requirements. We have locations throughout the US, Canada, South America, Europe, Australia and Asia.

Our unparalleled talent and expertise enables us to consistently deliver Complete Scaffolding Solutions."
